Rene VanDyk Ness said: Our kitty, Birchwood, just returned home from a 5 week stay at Cat Nap Inn. Kolleen and her staff were so wonderful to work with as we were in the final stages of building a house and our timeline was continually changing. The flexibility of extending his stay was so appreciated and we are so grateful for the loving care and attention he received. We also enjoyed receiving a weekly update on how he was doing and detailed information about his week. We highly recommend Cat Nap Inn! The Ness Family

We've been taking our kitties to Cat Nap Inn for nearly 11 years, and never worry about them during our absences, as Kolleen and her employees are extremely attentive to their needs and keep us constantly apprised of their individual well-being when we are away. I could not imagine a better home away from home for our beloved pets!

Pamela Harriman said: Our boys Calvin and Cooper love staying here so much that whenever we are planning to go away this is the first reservation we make and after this reservation is secured, we make our other plans. Thank you so much for being available and for providing for our sweet boys. We have confidence that they'll be safe and should they become ill we know that we'll get a phone call in order to secure our permission for treatment. Thank You. Bill & Pamela Harriman

He is gregarious, loves people, and is curious about other animals. All that alone time at home with a pet-sitter coming by once a day made him bored and mischievous, and little bit bad. The Cat Nap Inn is careful with pest and disease control, and watches him for urinary problems, and i feel confident and relaxed with him there, so it is good for me, too!

We didn't know where our mom was going, and, at first, we were a little skittish about the whole thing (Etta especially), but when we realized we would be getting one on one attention, yum yum yummy treats like pumpkin (yes, I said PUMPKIN), our litter box scooped every day, AND windows to look out with birds to watch, we were in heaven. We're happy that mom is back, but if we can go to Cat Nap Inn again, it won't be too soon. – James Slater (dictated by “mom” Deb Slater)

THANK YOU Kolleen and staff!!!!

great. Kolleen showed me the entire facility and even included letting me know of their escape route in case of an emergency, which I really appreciated. I was impressed at how thorough she was in checking my cat for fleas, etc. It's great that she actually cares about all of the cats that will be in contact, and her staff. And all of the individual cat islands, etc. are great and spacious and extremely reasonably priced. Highly, highly, highly recommend.
