

Information for guests receiving subcutaneous fluids while staying at Cat Nap Inn

Cat Nap Inn will administer subcutaneous fluids for established clientele only. It is ideal to have a veterinarian's note at least two weeks prior to check in.

We require the following:

1. A letter from your cat's veterinarian stating
 - a) The medical condition that requires the subscribed fluids
 - b) Any other medical conditions
 - c) That your kitty is healthy enough to board
 - d) The amount and frequency of the fluids to be administered
2. Enough needles for a single-time use for each administration
3. Please send along extra fluids and needles in case your trip is extended a few days.

If you have any questions, please ask!
