

Our Difference

“When I go out of town, I know my Etta and James are going to be safe, comfortable and spoiled at Cat Nap Inn. They love all the special attention they get and I love knowing they are well looked after. That’s why I chose Cat Nap Inn.” -*Deb Slater, Etta and James’ mom*

At Cat Nap Inn, we ADORE cats and cat people. You can trust us to care for your furry feline family members as if they were our own. Since we opened our doors in 1999, we have chosen to remain small. This allows us to give individualized love and attention to each and every one of our guests. Personalized care is our specialty!

Here are a few other benefits of boarding at Cat Nap Inn:

Our staff take great pride in our extensive health and safety measures (*HEPA air filtration system, individual air ventilation in every suite and double-entry doors at every entrance as well as tracking guests’ mood and EVERY function to name a few*).

We are locally owned, owner-operated and are committed to giving back to the community.

We believe boarding in a cat-only facility is the best option for you and your cat. Guests have continuous daily attention, supervision and love by a trained professional all the while your home stays private and secure in your absence.

It is simple: we only board and we only board cats. There are no other distractions. This allows us to focus on one thing: our precious guests.
